

Specialised System Components for Biscuit Processing Plants

Biscuit Processing

Biscuit Processing

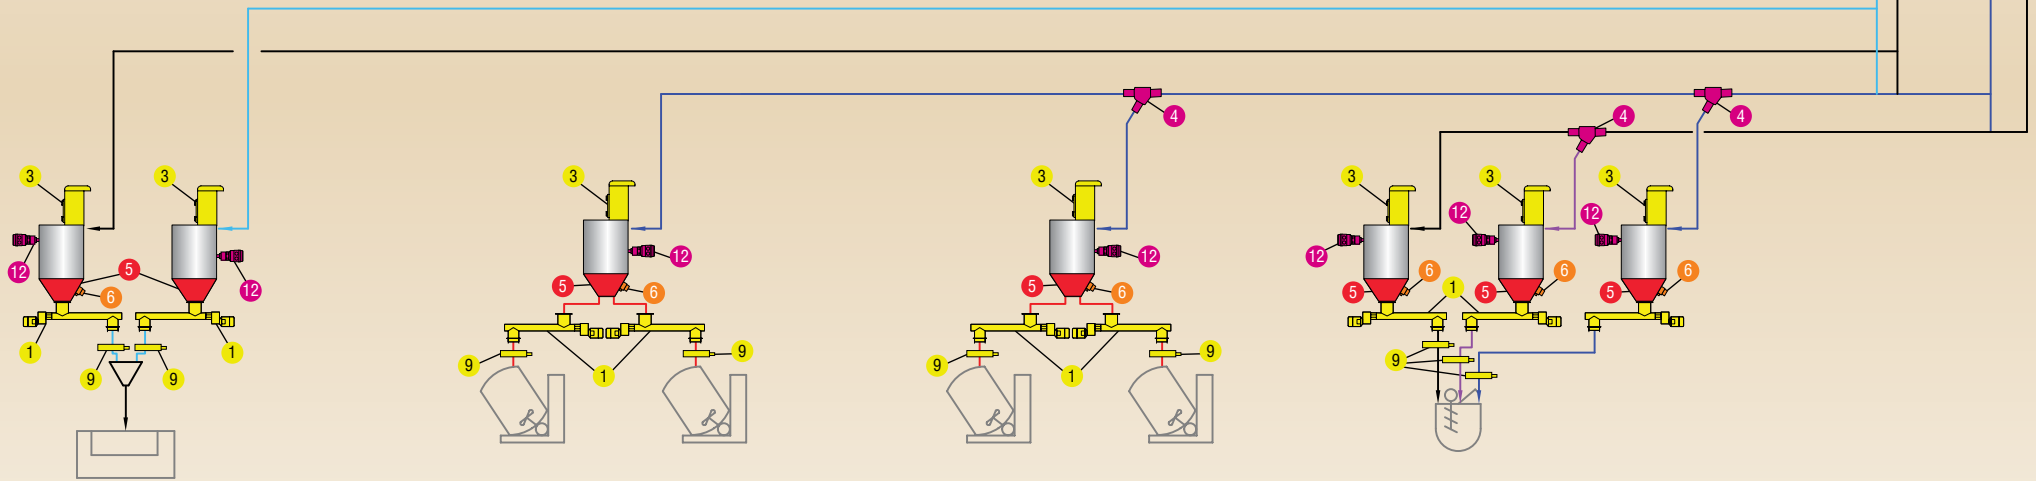

WAMGROUP® offers specialised system components tailored to the specific requirements of project engineers of biscuits processing plants.

By selecting this specialised equipment, system designers have the assurance they will combine top quality and performance with the highest possible operating efficiency.

Biscuit Processing

FINISHED DRY PRODUCTS AND CUSTARD FILLING

1 Screw Feeders TX

Minimum residue stainless steel design, ATEX zone 22 certification

2 Drop-Through Rotary Valves RV-RVR

Versatile in all applications

3 WAMFLO® Dust Collectors

Compliant with ATEX and latest health & safety standards

4 Diverter Valves VAR

Contamination-free

5 Stainless Steel Bin Activators BAEX

*Maximum work safety
ATEX-compliant*

6 External Pneumatic Vibrators OT-Type

Durable

7 Batch-Type Single Shaft Mixers WBH

Short mixing and discharge time

8 Stainless Steel Manual Bag Openers RSM-RSMX

Operator-friendly design

9 Butterfly Valves VFS

Maintenance-friendly: small number of components

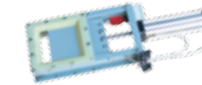

10 FIBC Dischargers SBB-220

Easy bulk bag handling

11 Slide Valves VL

No seal adjustment required

12 Vibrating Level Indicators ILV

Easy to install

13 Spring-Loaded Pressure Relief Valves VCPX

Optimum work safety: ATEX zone 21-certified

14 Membrane Pressure Relief Valves VHS

Ideal for indoor installation

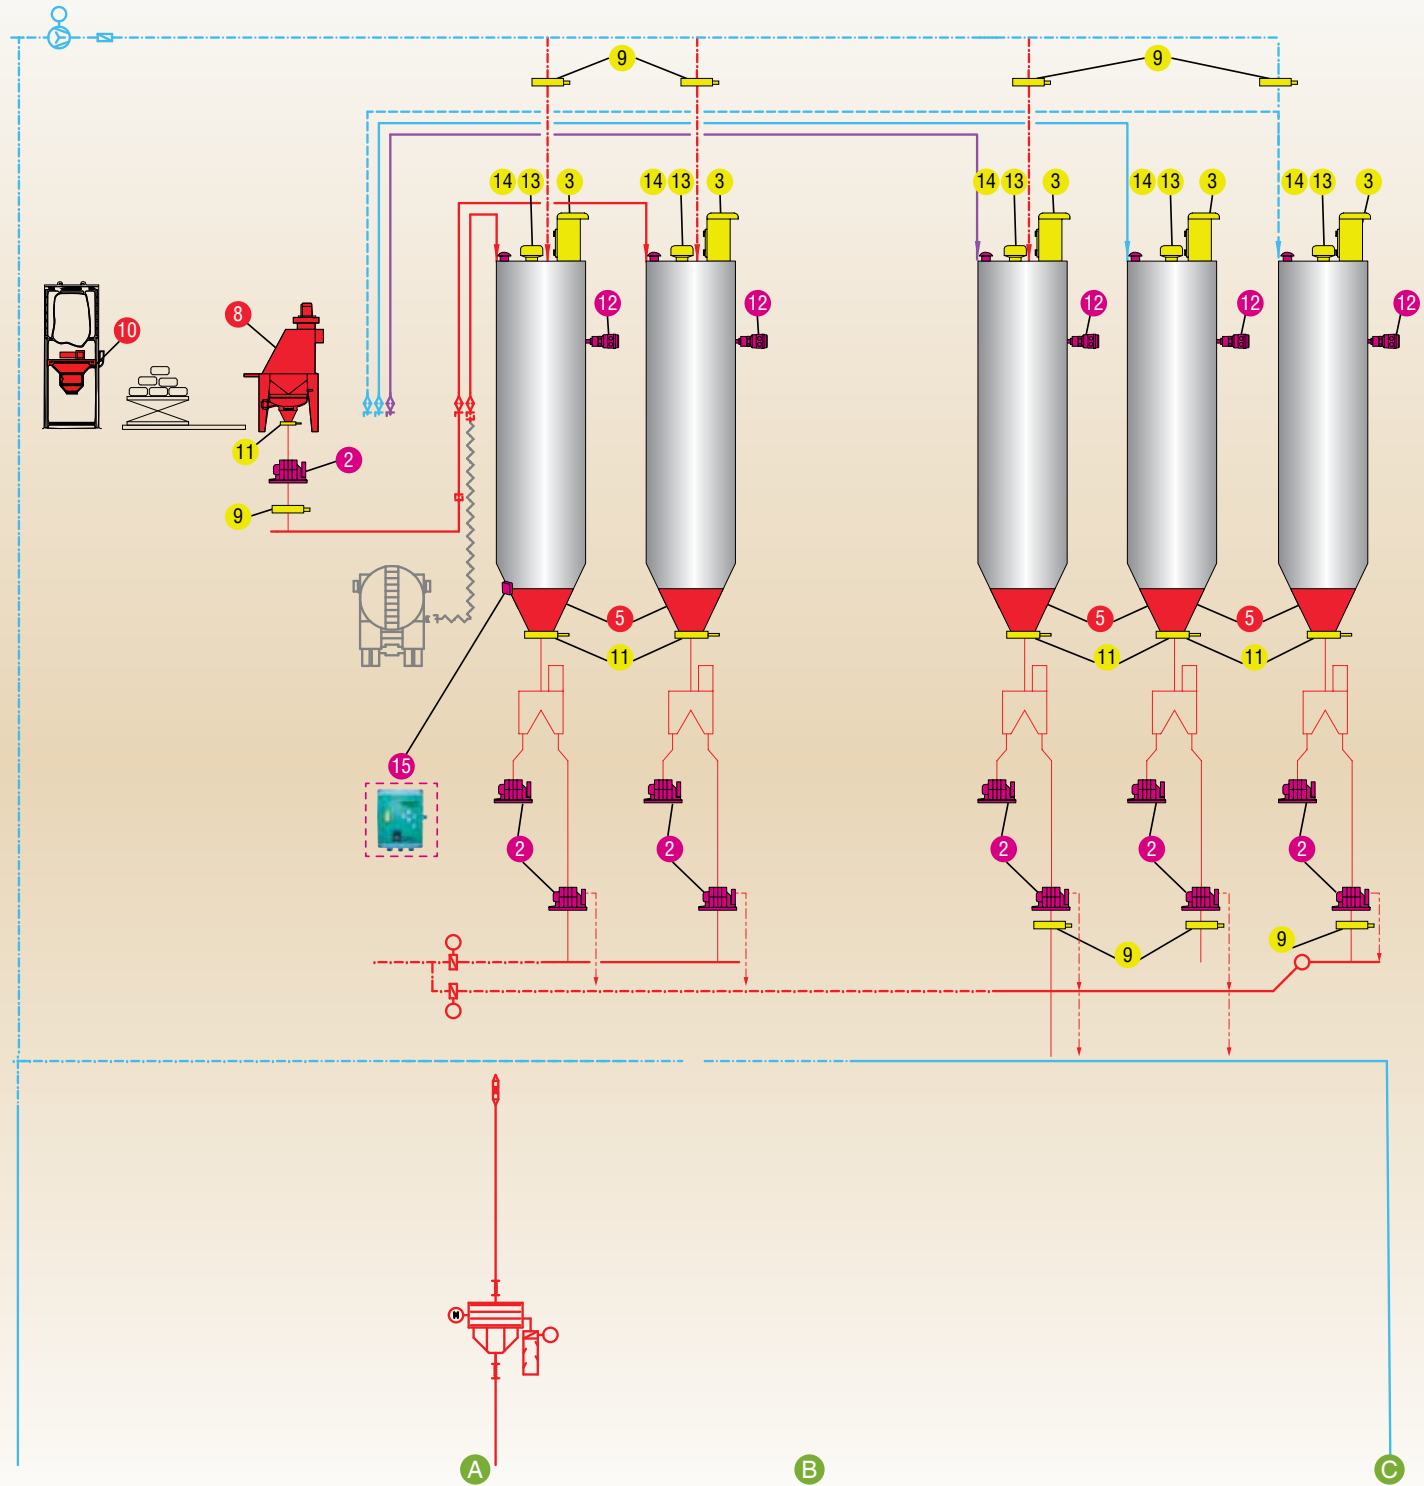

15 Silo Safety System KCS

One control panel for up to 16 silos
