

Specialised System Components for Sugar Processing

Sugar Processing

Sugar Processing

WAMGROUP® offers specialised system components tailored to the specific requirements of project engineers of raw material handling and processing plants for the food production, as well as for processing plants dedicated to sugarcane & sugarbeet processing plants.

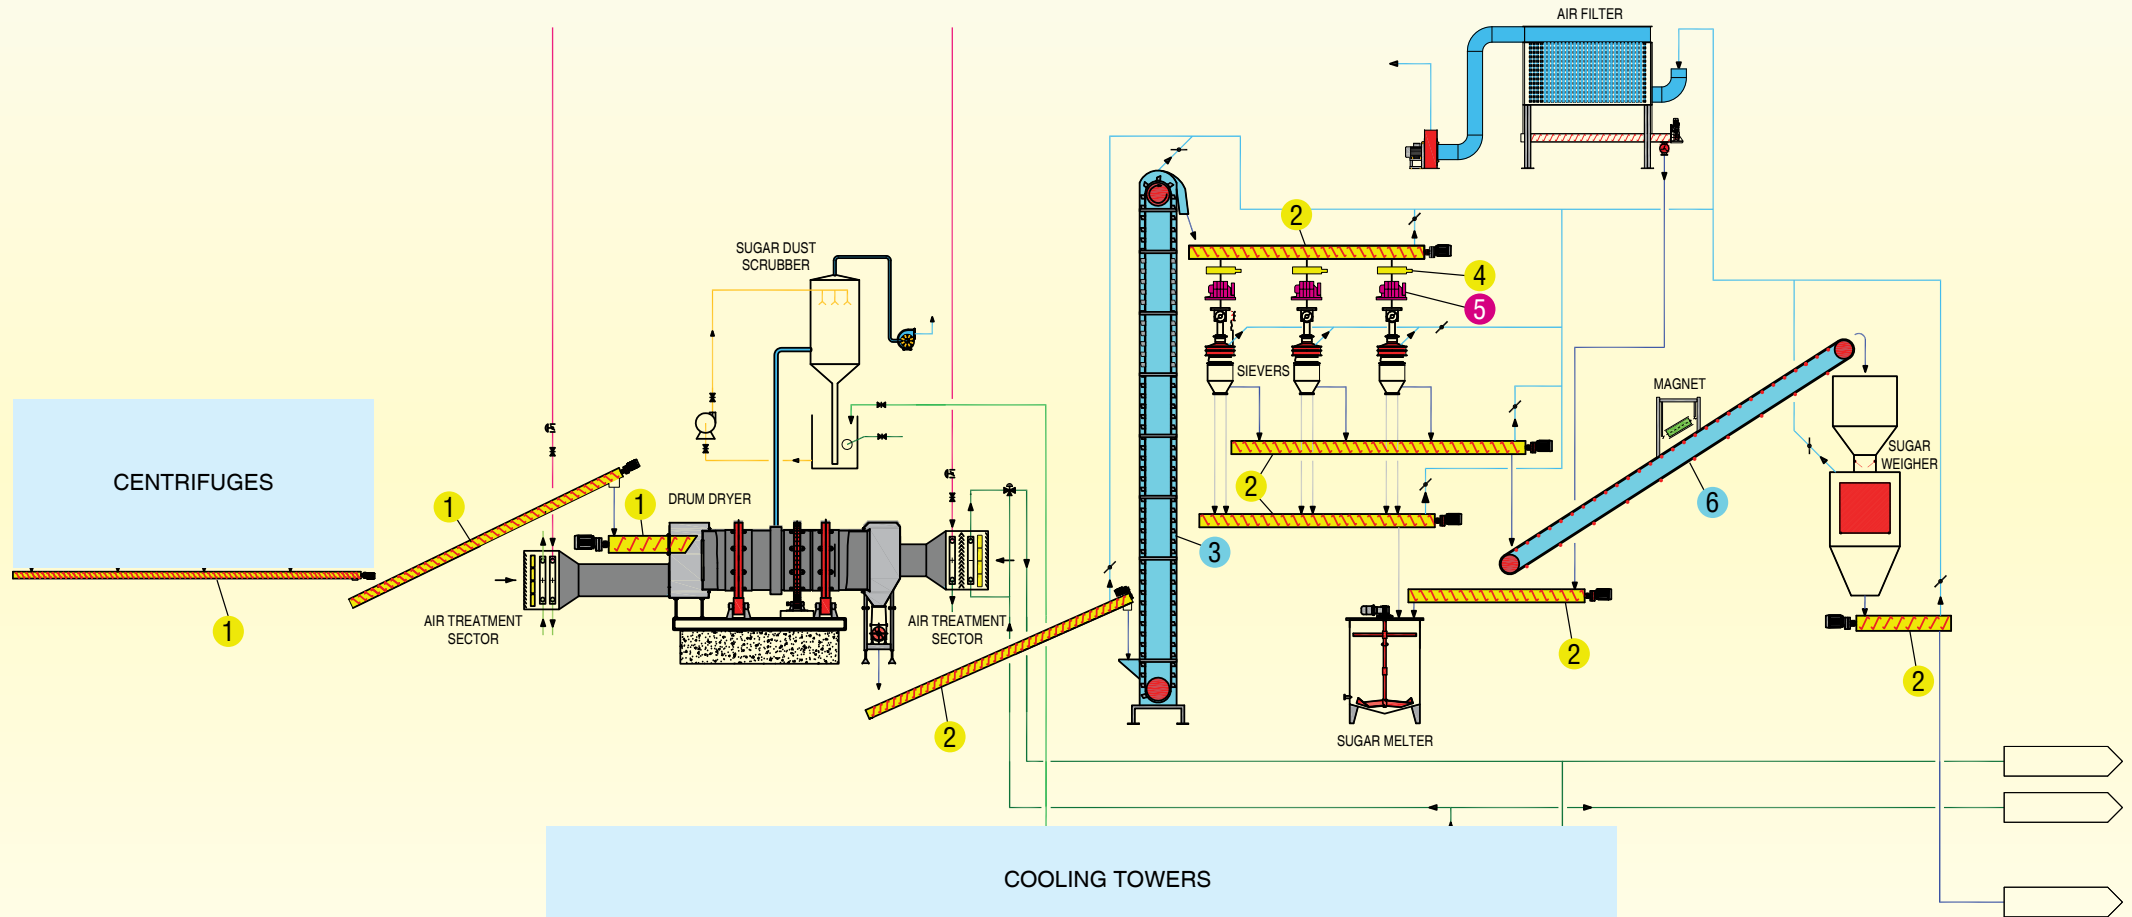

By selecting this specialised equipment, system designers have the assurance they will combine top quality and performance with the highest possible operating efficiency.

Note: The two layouts are only process areas where to get potential application of WAMGROUP® components.

Sugar Processing

SUGAR CONDITIONING

1 Specialised Screw Feeders CX
Sturdy design

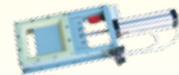

2 Screw Feeders CX
Sturdy design

3 Bucket Elevators EH
Maximum work safety

4 Slide Valves VL
No seal adjustment required

5 RV-RVR Drop-Through Rotary Valves
Versatile in all applications

6 Belt Conveyors NTS
For dried sludge extraction

UNI EN ISO 9001
Certified Company
